Dear Reader,

Following publication of this article, the authors informed the Editorial Office that the ethics approval code was inadvertently omitted from the Ethics Statement.

The Ethics Statement should be updated as follows:

Ethics Approval: This study was conducted following approval from the Clinical Research Development Center of Shahid Dr. Rahnemoon Hospital, Shahid Sadoughi University of Medical Sciences, Yazd, under the ethics code IR.SSU.SRH.REC.1401.017. All collected data were used solely for research purposes, and confidentiality was maintained throughout all stages of the study. To protect participants' privacy, the data were reported without names or personal identifiers. In addition, participation in the study was voluntary and informed.

This omission was an oversight during manuscript preparation and does not affect the scientific content, results, or conclusions of the article.

The Editorial Office has issued this erratum to complete the published record.

This correction has now been updated in both the PDF and HTML versions of the article.
